

2016 Travel Trailers

Inspiring adventure for more than 80 years.

In 1931, Airstream began with a dream: to create lightweight travel trailers that slipped cleanly through the wind. And with it was born another dream, one of new freedoms, new places, new experiences, and new friendships. It was a dream so powerful and enduring that it did far more than create a new way to travel; it created a way of life shared by thousands upon thousands of families.

This latest fleet of Airstream Travel Trailers continues the tradition of extraordinary design and hand-crafted quality that has made Airstream world famous. Following our founder Wally Byam's credo, "Let's not make changes, let's make only improvements," this fleet offers the latest technology advancements and conveniences in a way that is distinctly Airstream. With travel trailers perfect for everyone from first-timers to seasoned Airstreamers, you're sure to find one ideal for the adventure that awaits you around the next bend!

Bob Wheeler
President & CEO
Airstream, Inc.

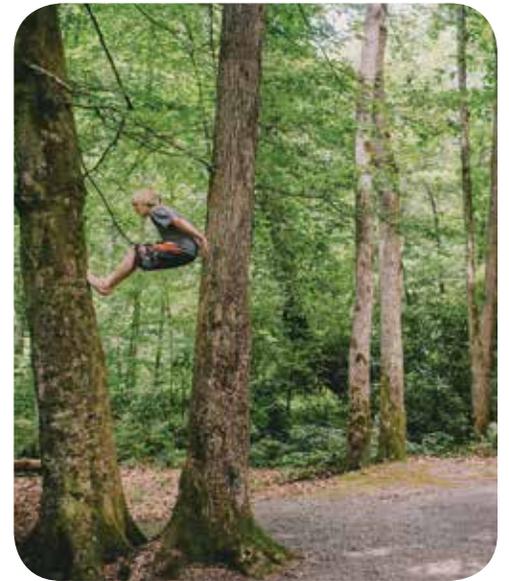

Live Riveted

Dream. Travel. Explore. Live.

Living riveted is about discovery. Not just of new places and spaces, but also of people and ourselves. It's the drive to open a whole new world of experiences.

So awaken your venturesome spirit. Come alive. Be passionate, engaged, and present in every moment. Live Riveted.

	<p>Bambi is a name applied to all new single-axle Airstream travel trailers, including the Sport, Flying Cloud, and International Series. Their easy-to-tow size, versatility, and style have won the hearts of Airstreamers for over 50 years.</p>							

Aerodynamics and Ease of Towing

Higher Towing MPG*

The aerodynamic design of Airstream travel trailers contributes up to a 20% advantage in towing efficiency over standard travel trailers.

Lightweight. Streamlined. Fuel efficient.

One part rocket science, two parts common sense. From the beginning, Wally Byam understood the importance of making his Airstream travel trailers easy to tow. After all, Airstreamers are always ready for their next adventure. A rounded, low-profile shape, paired with strong yet lightweight aluminum, is the trademark of the iconic travel trailers that have become an American cultural legend. Today, true to form, the fuel-efficient travel trailers are nimble and stable on the road, just as they were when they first graced the open road decades ago.

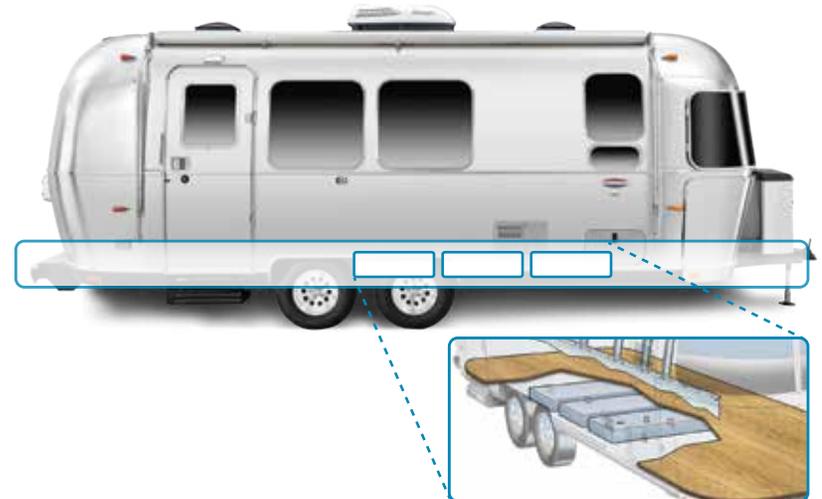

Superior crosswind deflection and lower center of gravity promote far better stability than other travel trailers.

*Actual mileage may vary due to load, driving style, driving conditions, and tow vehicle.

Low Center of Gravity

A uniquely engineered chassis, rubber torsion axle, and undermounted holding tanks keep weight below the floor of the travel trailer, providing a very low center of gravity for greater stability and a smoother ride during towing.

Smooth. Strong. Stable.

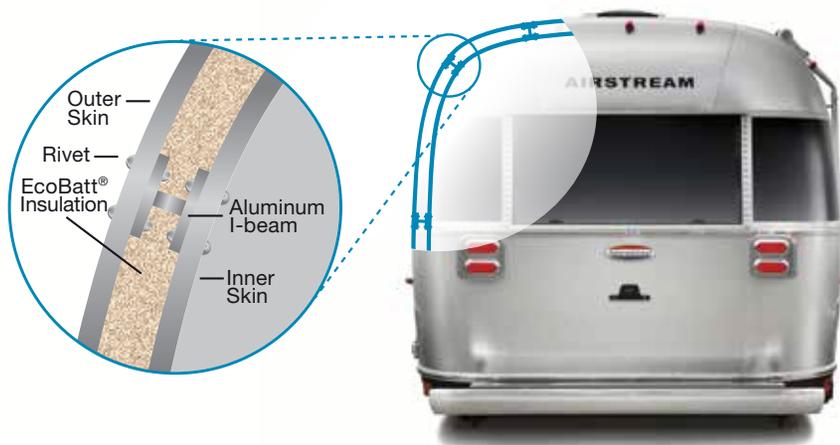

It's no surprise Airstream travel trailers are so beloved. Airstream's iconic and patented aerodynamic shape is just the beginning of the story. Its unique chassis and axle design create a low center of gravity. Confident, smooth towing is physics in action. Every Airstream is hand-built with painstaking attention to detail. In over 80 years of practice, we've put over 100,000 units on the road. Every one, a work of art. Every one, a feat of engineering.

Durability and Comfort

For our full GREEN story, visit airstream.com.

Semi-Monocoque Construction

Built with integrity.

You don't get a reputation as the finest in land travel without reason: Airstream travel trailers are simply built the right way. Superior structural integrity is a result of their semi-monocoque construction, similar to that of an airplane. The result is a durable, lightweight travel trailer. The aluminum skin, riveted to a solid frame, gives the Airstream its timeless, streamlined shape, and unimpeachable strength.

Quietstream™ Climate Control

Quiet as a whisper.

Airstream isn't just the most streamlined travel trailer in the world. With ducted climate control, sleekly-integrated ceiling vents throughout the Airstream add comfort without taking anything away from the interior. Beginning with our 2016 travel trailer line, Quietstream™ now comes standard on every floorplan in every length of the Flying Cloud, Eddie Bauer, International Series, Classic, and Land Yacht. The reduction in noise is phenomenal, adding to an already exemplary road travel experience.

The ultra-towable Airstream Sport is a premium compact travel trailer that sets you free to hitch up and go, without leaving behind the comforts of home.

Combining the single-axle efficiency of a lightweight Bambi travel trailer with more comforts than many travel trailers twice its size, the Sport maximizes space while minimizing waste. Choose your floorplan and the interior styling that suits you. Then take the Sport out and play!

Floorplans: 16 & 22

Spacious yet fuel-efficient, the Sport is light enough to tow with an SUV, yet still packed with features that make it perfect for those who want to chase after adventure on the open road. Nimble. Functional. Efficient. The only question left: where will you take it first?

16 Sport wet bath with pass through exterior shower head

The ultra-towable Sport features spacious living and dining areas, perfect for adventurers who want to get up and go.

16 Sport in Morning Fog Décor with Tan Ultraleather™ Option

16 Sport in Tan Ultraleather™ Option

The European-style wet bath in the 16 Sport combines a shower and toilet into one space-maximizing unit that cleans in a snap.

The Flying Cloud has been one of Airstream's most popular travel trailers for decades.

With more floorplans available than any other model, it's easy to see why: with a fit for families, long-term travelers, or weekend wanderers, you're sure to find a Flying Cloud that's perfect for you.

New floorplans in 2016 feature a U-shaped dinette and bunk beds. But no matter which you choose, you'll have quality and comfort that's uniquely Airstream. Choose your style, then float away to your destination.

Floorplans: 19 to 30

Practical and efficient, the Flying Cloud invites you inside with the flair of modern design. Compared to its “box-shaped” competitors, it’ll last longer, require less maintenance, offer better stability when towing, and cost less at the fuel pump.

Functional and flexible, lightweight and liberating, rugged and reliable. The Flying Cloud goes above and beyond to offer travel comfort and convenience on a higher level than you ever dreamed.

27FB Flying Cloud in Cashew Ultraleather™ with Mica Décor

The Flying Cloud is perfect for families seeking a functional, flexible living space that feels like home.

30FB Bunk Flying Cloud

30 Flying Cloud

Eddie Bauer EST. 1920

Two American classics, one unforgettable way to explore. Airstream and Eddie Bauer have symbolized travel adventure for over 160 years. This travel trailer is built for those who adore the outdoors.

Built to haul oversized gear, it's perfect for outdoor adventurers of all kinds. A wide sport hatch and foldaway furniture are just the beginning, as they clear enough space to store kayaks, rafts, mountain bikes, or climbing gear. If you feel at home in the outdoors, the Eddie Bauer is for you: a roll-away screen invites fresh air in while keeping the bugs out.

Floorplans: 25FB & 27FB

+

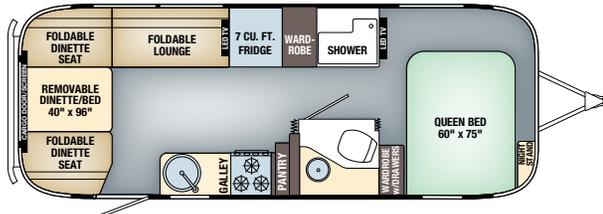

Eddie Bauer EST. 1920

Just because it's built for the outdoors doesn't mean you have to rough it. Eddie Bauer goose down pillows, comforter, and packable throw are all included, so you have no choice but to travel in style. Extra-durable Sunbrella™ upholstery means you can go ahead and bring your four-legged best friend along without a worry. Modular furnishings, top-quality finishes, and luxurious fabrics make the Eddie Bauer an easy choice and a fan favorite.

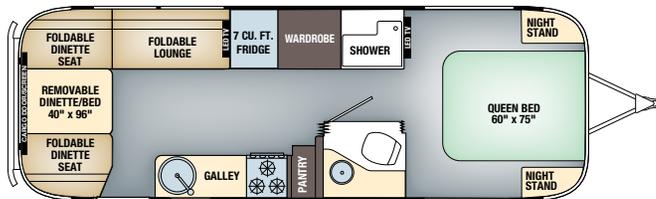

Interior modular furnishings in the Eddie Bauer fold away to give you more space right where you need it.

CLASSIC

Airstream's most historic nameplate is designed for long-term adventurers or full-time living, those committed to a life enriched by shared experiences and a life well-lived.

Truly an icon of the American highway, the Classic is built with all the traditional craftsmanship and durability that's given Airstream the reputation as the finest inland travel. You'll feel right at home in the Classic, no matter how far you roam.

Floorplan: 30

CLASSIC

Inside the Classic, you'll find abundant storage, sophisticated design, private sleeping quarters, and spacious living areas. Each elegant floor plan was created to make long-term travelers feel at home. Luxury fabrics, premium fixtures, and durable marine-grade flooring are proof the Classic is timeless.

Day and night adjustable shades

Among other amenities, the Classic features a power adjustable bed with integrated storage and safe.

LAND YACHT

The Land Yacht is the most luxurious Airstream travel trailer ever conceived, drawing inspiration from the world's finest luxury ocean craft.

A collaboration between Airstream engineers and famed Italian Riva yacht designer Mauro Micheli, the Land Yacht is simply the finest choice in land travel. One step inside and you'll want to set sail without ever looking back.

Floorplan: 28FB

LAND YACHT

The Land Yacht flourishes with elegant curved cabinetry and sumptuous padded surfaces.

Detail-stitching complements a sleek, streamlined style, cleverly hiding a host of practical features and premium upgrades.

A front bedroom suite, fit for an admiral, leads to a full wardrobe and a spacious bathroom midship.

Relax in the rear lounge, an inviting area featuring a galley that can be hidden when not in use. An automatic bed lift reveals access to hidden storage, and with the powered awning drawn, even the exterior becomes a welcoming social space.

The Land Yacht's versatile foldaway galley provides multifunctional serving spaces.

The Airstream Glossary

Fresh Water – Onboard fresh water storage for when you're not hooked up to a campsite source.

Gray Water – All wastewater that comes from your sinks, showers, and baths.

Black Water – Basically a nicer term for sewage. It's the wastewater from your toilet system.

Deep Cycle Battery – A heavy-duty steady-current battery which powers the Airstream's electrical systems.

Hitch Weight – The downward force on the tow vehicle's hitch. Your tow vehicle and hitch ratings must exceed this.

LP - Liquid propane which fuels many of the onboard appliances.

S'more – The best camping dessert ever conceived.

GVWR (Gross Vehicle Weight Rating) – Maximum weight of the travel trailer, cargo, and liquids. Your tow vehicle's tow rating should exceed the GVWR.

UBW (Unit Base Weight) – The weight of the Airstream, without cargo, water or options.

NCC (Net Carrying Capacity) – Maximum amount of weight in the form of cargo and water.

$$NCC = GVWR - UBW$$

24/7 Roadside Assistance

Airstream is proud to offer free 24/7 assistance on all new travel trailers provided by Coach-Net Membership Plans. This two-year service covers both your Airstream Travel Trailer and tow vehicle attached to your travel trailer. Not only does this service provide emergency roadside service should you have a breakdown, but Coach-Net membership plans also provide technical service for your Airstream after-hours, should you have any questions.

Please contact your local Airstream Dealer for more information.

 **AIRSTREAM**

Proudly made in
Jackson Center, Ohio, U.S.A.

We want to say a huge thank you to all of the 'Streamers and the Dreamers out there. This past year was one of incredible adventures, exploration, dreams and growth here at Airstream, and we couldn't have done it without you. You all are our community and our friends – the ones who make Airstream what it is. And for everyone, keep on *Living Riveted*. There's no better way to live.

Thank You

All capacities are approximate and dimensions are nominal. Actual products may differ from the photographs, specifications, and product information in this brochure due to product changes. Prices and specifications are subject to change without notice. Photos may contain some features that are optional. Some features or options may be different or unavailable in Canada.

This information is intended as a guide only. Weights of individual recreational vehicles may vary. Consult the owner's manual for complete loading, weighting, and towing instructions.

Dry weights are based on standard features; optional equipment is not included. The Net Carrying Capacity (NCC) is determined by subtracting Unit Base Weight (UBW) from the Gross Vehicle Weight Rating (GVWR), and is the capacity available for water, options, and cargo. Liquid capacities and weights are approximations only.

The recreational vehicle weight must remain within the manufacturer's specified chassis weight limit. Do not overload the recreational vehicle through the addition of water, options, cargo or otherwise.
